

Fix-A-Thread[®] Insert Installation Instructions

Drill to clear out the damaged thread (if necessary).

Thread insert tap supplied. Tap thread should match up with bolt.

Wind insert in with light downward pressure until 1/4 to 1/2 turn below surface, driving tang towards bottom of the hole.

Remove tool and sit back on top of tang. Tap down sharply. Do not try to twist tang off.

For large fine threads, use long nose pliers and pull tang out.
